baalaarishta nivaaraNam

Oh, Devi, किमपि हंसद्वन्द्वं भजे I worship the two indescribable *hamsas* (which), समुन्मीलत् संविद् कमल-मकरन्द एक-रसिकं solely relish the honey in the blossoming lotus or wisdom (Consciousness) and महतां मानसचरम् swim in the minds (lake) of great seers. यत् आलापात् From their utterances अष्टादश-गुणित-विद्या परिणतिः the 18-fold Vidyas evolved; यत् they आदत्ते separate गुणं अखिलं all good दोषाद् from evil पय इव as milk from water.

I worship the indescribable pair of swans which are solely relishing the honey in the blossoming lotus or wisdom (Consciousness) and are moving in the Manasa lake (the minds of great men) and from whose talk developed the 18-fold Vidyas, and which distinguishes all good from evil as milk from water.
