Sukha nidraa laabhaartham

सुदति Oh Devi! The one with beautiful teeth!
प्रकृत्याऽऽरक्ताया-स्तव दन्तच्छदरुचेः to the splendor of Your lips that are by
nature red ! प्रवक्ष्ये सादृश्यं I shall mention a likeness; विद्रुमलता Let the
coral creeper फलं जनयतु bear a fruit. (it may be likened; however
there is no fruit in coral creeper) बिंबं तद्विंब-प्रतिफलन-रागा-दरुणितं
Rendered reddish because of the reflection of Your form the bimba
fruit, कथमिव न विलज्जेत how will it (the bimba) not be ashamed
तुलामध्यारोढुं to be placed on the scales कलया even with a fraction of
Your splendor?!

Oh Devi! The one with beautiful teeth! I shall mention a likeness to the
splendor of Your lips that are by nature red ! Let the coral creeper bear
a fruit. The bimba fruit is not akin to Your lip. Rendered reddish
because of the reflection of Your form how will it (the bimba) not be
ashamed to be placed on the scales even with a fraction of Your
splendor?
